EMPLOYMENT HISTORY

FULL STACK DEVELOPER Present <i>Feluxurious E-commerce Store</i> https://github.com/KingDrahggo/eCommerce <ul style="list-style-type: none">■ Spearheaded UI design with Angular 16+, tailwind, and material, prioritizing accessibility to boost customer retention. Built Python/Django backend for Stripe API integration and MySQL data storage.■ Analyzed user behavior to optimize e-commerce interface, resulting in improved navigation and increased conversion rates. Implemented data-driven strategies for enhanced user experience.■ Drove significant improvements in site performance through strategic code optimizations, leading to faster load times and reduced bounce rates in the e-commerce platform.■ Conducted user behavior analysis to refine e-commerce interface, improving navigation and conversion rates. Implemented data-driven UX strategies.	Jul 2023 - <i>Remote</i>
FULL STACK DEVELOPER Present <i>ServiceConnect Start-Up</i> <ul style="list-style-type: none">■ Engineered GraphQL endpoint for efficient MongoDB data retrieval via NestJS, optimizing database interactions and improving system scalability.■ Partnered with cross-functional team to create a dynamic start-up solution, integrating Angular Material and Tailwind for a cohesive and responsive user interface.■ Drove project from concept to GitHub repository, implementing modern web technologies to deliver a functional platform connecting users with professional contractors.■ Spearheaded development of cutting-edge communication platform, bridging gap between users and contractors for efficient task completion in niche market.	Mar 2023 - <i>Remote</i>
FULL STACK DEVELOPER 2023 <i>Antra Inc</i> <ul style="list-style-type: none">■ Actively contributed to daily scrum meetings, sharing insights on cutting-edge technologies and framework updates to enhance team knowledge and project outcomes.■ Spearheaded full-stack application development using Angular, MongoDB, and NodeJs/Express, showcasing proficiency in modern tech stacks and driving team innovation.■ Implemented GraphQL endpoints to optimize data retrieval, improving application performance and user experience through efficient query management. ■ Contributed to elevating team marketability by staying ahead of industry-leading technologies, positioning the group as forward-thinking developers.	Jul 2022 - Jul <i>Remote</i>
ASSOCIATE FRONT-END WEB DEVELOPER 2021 <i>Kenzie Academy</i> <ul style="list-style-type: none">■ Developed responsive web applications using React, HTML, CSS, JavaScript, integrating RESTful APIs for dynamic data retrieval and enhancing user experience ■ Partnered with colleagues to deliver front-end projects, leveraging HTML, CSS, and JavaScript to create intuitive user interfaces■ Implemented Test Driven Development practices, resulting in robust and maintainable code for applications like the Pig Latin Generator, and Trivia Quiz. ■ Engineered a location-based image retrieval system utilizing Geolocation API, demonstrating practical application of API integration skills■ Crafted a Tic-Tac-Toe game from scratch using React, showcasing proficiency in component-based architecture and state management	Feb 2021 - Aug <i>Remote</i>

EDUCATION

B.S. IN SOFTWARE ENGINEERING	2024 -
Present	
<i>Southern New Hampshire University</i>	<i>Remote</i>
KENZIE ACADEMY, ASSOCIATE FRONT-END WEB DEVELOPMENT CERTIFICATION	Feb 2021 - Aug
2021	
<i>Southern New Hampshire University</i>	<i>Remote</i>

SKILLS

JavaScript, TypeScript, Node.js, HTML, CSS, Angular2+, React, jQuery, BootStrap, Tailwind, Nest.js, Express.js, GraphQL, Postman, MongoDB, Firebase, AWS, Jasmine, Karma, JestJS, Git, GitBash, JIRA, Visual Studio Code, Agile.
