PROFESSIONAL SUMMARY

Frontend-Focused Full-Stack Developer with 3+ years of experience creating responsive, scalable web applications for startups and freelance clients. Specialized in **Angular**, **TailwindCSS**, **NestJS**, **Node.js/Express**, and **MongoDB** with strong attention to user experience, visual consistency, and performance optimization. Skilled at collaborating across design and backend teams to deliver engaging, production-ready solutions from concept to deployment.

SKILLS

Front-End: Angular | React | TypeScript | JavaScript | HTML | CSS | Bootstrap | Tailwind | Angular Material | Ionic

Back-End: Node.js | NestJS | Express.js | GraphQL | MongoDB | RESTful APIs

Tools & DevOps: AWS | Postman | Git | GitBash | JIRA | Jasmine | Karma | Agile | Miro | PWA Development | TDD

EMPLOYMENT HISTORY

Front-End Development/ Web Design

August 2025 - Present

Passport Preparatory Academy

Remote

- Developed a responsive school web app using **Ionic Angular** and **TailwindCSS**, delivering a polished, mobile-friendly experience.
- Designed and implemented a reusable **Figma-based UI system**, improving design consistency and maintainability.
- Integrated **interactive animations using Spline**, creating a more dynamic and engaging interface.
- Planned a scalable **NestJS backend** structure for content management and administrative tools.
- Enhanced the academy's online presence and engagement through modern UI and design principles

Full-Stack Development

December 2024 - Present

Freelance MarketPlace App

Remote

- Building a **cross-platform freelance marketplace** using **Ionic Angular**, **TailwindCSS**, **NestJS**, and **MongoDB**.
- Designed secure **payment and data management workflows** using Stripe and GraphQL APIs.
- Developed user-focused features like **service matching, bidding, and notifications** to simplify hiring processes.
- Aiming to scale the platform to the **App Store** as a full production application.

Full-Stack Development

Mar 2023 - Feb 2025

Service Connect Start-Up

Remote

- Designed and prototyped a **real-time contractor marketplace** using Angular, Tailwind, and NestJS.
- Created REST API services to support fast, reliable client-contractor interactions.
- Collaborated with the product owner on MVP scope and UX direction.
- Application was **discontinued during development(currently in pending state)**, but served as a key experience in full-stack architecture and startup collaboration.

Front-End Development

July 2023 - March 2025

Feluxurious Ecommerce Store

Remote

- Developed a **responsive e-commerce storefront** with Angular 16+, Tailwind, and Angular Material.
- Integrated product listings and shopping cart with a **Django backend**, ensuring seamless transactions.
- Improved UI performance, reducing load times by **35%** through code and resource optimization.
- Conducted usability testing to refine navigation and boost user retention.

Full-Stack Development

July 2022 - July 2023

Antra Inc

Remote

- Developed enterprise-level full-stack applications using **Angular**, **NestJS**, **ExpressJS**, and **MongoDB**.
- Implemented **RESTful and GraphQL APIs**, improving data flow and performance across projects.
- Worked across **Agile** teams to deliver full-stack features on tight timelines, adapting quickly to new frameworks and tooling.

EDUCATION

Bachelor of Science in Software Engineering

July 2024 - Expected July 2026

Southern New Hampshire University

Remote

Associate Certification in Front-End Web Development

Feb 2021 - Aug 2021

Kenzie Academy @ Southern New Hampshire University
